RE: Termination, in part, of the antidumping duty investigation on hydrofluorocarbon blends and components from the People's Republic of China (A-570-028)

1. On 08/11/2016, the International Trade Commission (ITC) published in the Federal Register its final determination in the antidumping duty investigation of hydrofluorocarbon (HFC) blends and components from the People's Republic of China (PRC) (A-570-028) (81 FR 53157) that two domestic like products exist for the merchandise covered by the Department's investigation: 1) HFC blends; and 2) HFC components. The ITC determined that a U.S. industry is not materially injured or threatened with material injury by reason of imports of HFC components from the PRC; therefore, HFC components are not covered by the antidumping duty order on HFC blends (81 FR 55436; 08/19/2016) and the antidumping duty investigation of HFC components from the PRC has been terminated.

2. CBP should discontinue the suspension of liquidation of entries of HFC components which were entered, or withdrawn from warehouse, for consumption on or after 11/03/2015 (the date of first suspension of liquidation of subject merchandise). Entries should be liquidated without regard to antidumping duties. All estimated antidumping duties deposited on entries of the subject merchandise shall be refunded and bonds or other security released.

3. Notice of the lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption on or after 11/03/2015 (the date of first suspension of liquidation of subject merchandise) occurred with the publication of the ITC's notice of final determination of investigation (81 FR 53157, 08/11/2016).

4. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
